PATENT

Unified Medical Record (UMR) cloud network is a revolutionary platform that transforms how patients access and manage their complete medical history.

👤 PROFILE

With over **12+ years** of experience building highly scalable, multi-tenant frontend systems, I specialize in architecting world-class web platforms that power mission-critical user experiences at massive global scale. I operate at the intersection of frontend architecture, platform engineering, and long-term system scalability.

> 🚀 **Key Achievement**
>
> As the founding engineer & architect at Walmart, I built a no-code, self-service portal from scratch and it is now used by 200+ teams across Walmart's global operations (US, Canada, Mexico) empowering Order Lifecycle, Marketing, Health & Wellness, Last Mile, and Security teams.

💼 WORK EXPERIENCE

Staff Software Engineer
Walmart Global Tech
2022 - PRESENT

Senior Software Engineer
Walmart Global Tech
2019 - 2021

Member of Technical Staff
PayPal India
2021 - 2022
